4 • 6 • 4

Directions for Use:

Feeder Packs: Place pack into the root zone of potted or in-ground plants at planting.

Young Trees and Shrubs: Install one pack per every 12 inch height of plant. Place pack 2 to 4 inches below soil surface near the plant stem or at the top of the root ball.

Potted Plants and Hanging Baskets: Install one pack per 1 gallon of potting mix.

Flower Beds and Perennials: Install one pack 2 to 4 inches below soil surface within 6-inch radius of plant stem or midway between stem and drip line of plant canopy.

Compost Tea: Place one pack per gallon of water into a watering can and let steep for 12 to 24 hours. Apply topically to leaves and soil. Reapply fresh tea weekly. For added benefit, use an air pump to add oxygen during the brewing process.
