SUSTANE 12-0-1 HI-N WDF (WATER DISPERSIBLE FERTILIZER)

Sustane Hi-N is a high analysis, water dispersible, nitrogen rich fertilizer. It is specially formulated to promote rapid and durable greening and plant growth. Hi-N efficiently delivers a unique blend of soluble organic nitrogen sources to support plant growth on diverse plant types in a wide array of growing systems.

DIRECTIONS FOR USE:

Mix up to 1 tablespoon (10 grams or 0.025 lb.) of Sustane Hi-N per gallon of water. Apply to foliage or as a soil drench to existing plants. Applications can be made every 7 to 14 days during the growing season.

LINES

COMMERCIAL FERTIGATION:

Sustane Hi-N can be applied through watering cans, hose end sprayers, high volume wide bore sprayers, and piped irrigation lines. Mix 1.3 lb. Sustane Hi-N WDF into 100 gallons of water. This may be done in concentrate, and then remixed into higher volumes of water. Recommended for use on most nursery stock and foliage plants.
